Ace Community Survey

This is the 2019 Ace Community Survey, a community research project by the Ace Community Survey Team. The purpose of this research study is to understand more about the diversity of the ace community, including asexual, demisexual, gray-asexual, and related identities. The results will be reported in a summary report, as well as additional papers investigating specific topics and their intersections with the ace community.

This survey is open to anyone over the age of 13, including both aces and non-aces. It will require approximately 30 minutes of your time to complete.

All data collected will be kept confidential, and no identifying information will be collected. Please note that some data may be shared with other researchers at qualifying research institutions who request information from the survey team for academic purposes. All research requests will be reviewed by the survey team.

This year, we are collaborating with Dr. Lauren Beach from the Institute for Gender and Sexual Minority Health and Wellbeing at Northwestern University to further research into health disparities of sexual minority groups.

Taking part in this survey is completely voluntary and you can stop the survey at any time. Most questions in the survey are completely optional, and can be left blank if you are uncomfortable or do not know how to answer.

This survey will ask about sensitive topics, including questions about sexual activity, sexual violence, suicide, mental health, and other topics which some people may find triggering. If you find any of these questions uncomfortable, you do not need to answer them. We will also warn you about potentially sensitive sections and allow you the option to skip the entire section.

If you have any questions or concerns about the survey, you can contact the Ace Community Survey Team at asexualcensus@gmail.com.

You can also view a list of frequently asked questions here: https://asexualcensus.wordpress.com/faq/ace-community-survey-faq/

You will be able to view any published results from the survey at http://asexualcensus.wordpress.com.

By clicking the "next" button below, you are indicating that you are over the age of 13, and that you consent to participate in this survey. If you are below the age of 13, or do not wish to participate in the survey, please use the back button in your browser to exit this page.
